Dear Mr/Madam

I am writing this letter to apply for a job as a frontend developer at your company. I am really interested in your company, and I believe that my strong technical skills can make me have an opportunity to work in your company.

I am a second year student at Passerelles Numeriques Cambodia. I have learned a lot from my school that is related to IT market program. I have got both soft skills and hard skills from Passerelles Numeriques Cambodia. I have increased my technical skills around two years at Passerelles Numeriques Cambodia.

As my resume indicates, I am confident that I will be a highly competitive candidate for this position. Including my soft skills, I can communicate with colleagues, and I have responsibility, respect, solidarity, and thrust. During the virtual company at my school, I have good communication with team and responded on my task. If I get a job in your company, I believe that I will work hard and respond to all the tasks that you assign.

In my experience and education background, I am confident you will be accepting my position. I will try my best to complete all responsibilities assigned. If you want to contact me for the job interview, you can contact me by email chanlylytouch8@gmail.com or by phone 097 26 09 932. Thank you for your consideration.

Sincerely yours,

Chanly Touch
